Assignment: Introduction and why this course - Written Assignment.

Hello, myself Dineshkumar G, I am from Coimbatore working in Ugam solutions as a senior analyst. I have completed my bachelor's degree with 65% in Hindusthan college of engineering and technology. I have completed my higher secondary with 82% and secondary with 93% in Government higher secondary school. I have 2 years of experience as a Senior Analyst. I have been mostly involved in program client questionnaires, focus on the client requirements for survey design, develop and debug web-based survey programs, and do maintenance as needed throughout the life cycle of the project. Currently pursuing a data science course at Edyoda Digital University and learning Python, R, SQL, Excel, Power BI, Power Query, Pandas, Matplotlib, Seaborg, and Scikit-learn. I have chosen the Data Science course in Edyoda to become a Data Scientist and chosen Data science due to my curiosity and I can put this certification in my CV to get a good job. This course will boost my job prospects. Since I am already a working professional, I want to push myself to take more challenges, this course will help me do better in carrying out various programs and give me an edge over my competitors. A certificate from Edyoda will attach credibility to my career. This course was suggested by one of my seniors. Getting certification on this course not only help me to stand out among thousands and help my resume get shortlisted and get a high pay job from top companies. There is a lot of potential and scope in this career opportunity. There is a lot of potential and scope in this career opportunity. In the data science field, there are many opportunities for a successful career. I enjoy analysing data, apply data science techniques, and helping others make decisions to improve their business.
